

**12m x 42m Tensile Traditional Marquee**

**All Pictures courtesy of Marlin Marquees**

***Introducing the Tensile Traditional Pole Tent, our take on a classic marquee. Our design is a tensioned PVC structure compatible with many existing Custom Covers parts and structurally engineered to European standards.***

**Internal 12m x 42m Tensile Traditional Marquee**

A product unlike anything else in our Coverspan tent range, the tensile traditional uses aluminium poles and ratchet straps to create a defined scalloped silhouette.

Available on its own or as a conversion kit, the tensile traditional comes in a standard size of 12m x 18m with options to extend length in 6m increments.

# **Tensile** Traditional Marquee
