

### 9m Hayling

The Custom Covers' Hayling frame utilises many existing components from a standard marquee to give a significantly different look and feel to the structure. Available in both 9m and 12m spans.

The Hayling allows you to create a verandah with a scalloped edge on 3 sides of the structure, using either 2 hip ends or 1 hip end and 1 gable end. The Hayling is a visually attractive alternative to your standard eave with it's 1.5m verandah overhang and gentle sloping hip ends.

This structure requires a 3m leg.

## The Hayling

**9m Hayling**

**Hayling Scallop Extension Arm**
